

Welcome Packet

North Carolina Health Information Exchange Authority

We are excited about your future connection to North Carolina's state-designated health information exchange, NC HealthConnex. To help you in this process we are providing the enclosed Welcome Packet that includes information to facilitate employee and patient education about your upcoming connection to NC HealthConnex. At this time, your organization has signed a Submission Only Agreement with the NC HIEA and will be submitting, at a minimum, demographic and clinical data on patients in your Medicaid and other state-funded programs. We have modified the welcome packet to adjust for this type of connection to NC HealthConnex.

In the packet you will find:

Initial Announcement Tools

- Sample initial email for CIO/CEO
- Sample employee newsletter announcement
- Talking points to educate employees
- NC Health Information Exchange Authority (NC HIEA) fact sheet

Go Live Announcement Tools

- Sample press release
- Sample senior leader email
- Talking points to educate patients
- Frequently Asked Questions for patients

Patient Education

- NC HIEA Sample Notice of Privacy Practices
- 8.5 x 11 fact sheet (available via the [NC HIEA website](#) for you to print or provide electronically)
- Waiting Room Tri-fold brochure [order form](#)
- Opt-Out Form (this will be available via the [NC HIEA website](#) for patients/providers to access)

Your connection brings us one step closer to achieving the NC HIEA's mission of connecting health care providers to safely and securely share health information through a trusted network so that together we can improve health care quality and outcomes for North Carolinians.

As always, we welcome your feedback on materials contained within this packet. Feel free to contact me at Christie.Burris@nc.gov.

Sincerely,

Christie Burris
NC Health Information Exchange Authority (NC HIEA) Executive Director

**NC Health Information Exchange Authority (NC HIEA)
CIO/CEO Email**

Instructions: You may use this template email to alert your employees.

Dear Colleagues,

We would like to announce that over the next several months we will be working with the NC Health Information Exchange Authority (NC HIEA) and SAS Institute (the NC HIEA's technical contractor) to build a connection from our electronic health/medical record (EHR/EMR) system to North Carolina's state-designated health information exchange – NC HealthConnex. The NC HIEA is the state entity that operates NC HealthConnex.

This connection will allow [organization name] to comply with North Carolina law, S.L. 2015-241, as amended by SL 2017-57, that requires health care providers who receive State funds for the provision of medical services (i.e. Medicaid, State Health Plan, grants, etc.) to submit clinical and demographic patient data to NC HealthConnex by certain dates. Much like other health information exchange networks we participate in, NC HealthConnex is a secure, standardized electronic system that promotes the access, exchange, and analysis of health information by linking information from separate health care sites to create a more complete patient health records.

For now, our organization has chosen to sign a Submission Only Agreement with the NC HIEA to comply with state law. Please note, this agreement does not allow our organization to query NC HealthConnex for patient data, exchange data with other participants, or participate in any of the additional services. We look forward to working closely with the NC HIEA as we explore opportunities with the value-added features it is developing.

While we believe the use of systems like NC HealthConnex will improve patient care, patients can choose to opt-out of having their information shared in the health information exchange. To educate our patients about this option, we will be updating our Notice of Privacy Practices and providing educational materials to our patients.

To assist employees in understanding this new connection, we have provided talking points. For employees and clinicians who have direct contact with patients, we will provide additional resources to help educate patients about NC HealthConnex. There will be more information on those opportunities to come.

If you have any questions about this new initiative, don't hesitate to contact [desired contact].

Initial NC Health Information Exchange Authority (NC HIEA) Talking Points

These talking points should be used to educate and assist staff when speaking about the NC Health Information Exchange Authority (NC HIEA) and the state-designated HIE – NC HealthConnex.

- North Carolina's state-designated health information exchange – NC HealthConnex, managed by the NC Health Information Exchange Authority (NC HIEA), provides a secure, statewide network for doctors and other health care providers in North Carolina to share important patient health information and improve patient care.
- There are two types of participation agreements provided by the NC HIEA – Submission Only and Full Participation. [Organization name] has opted to sign a Submission Only agreement which allows our organization to submit clinical and demographic data to NC HealthConnex to ensure compliance with state law, but does not allow for access or exchange of additional patient records. We look forward to working closely with the NC HIEA as we explore opportunities with the value-added features it is developing.

The Need

- Health care providers across the state recognize that information about their patients is not easily available to other providers who may be treating them in disparate locations. Oftentimes, patient information contained within local Electronic Health Records (EHR) remains specific to that network and leaves gaps in patient care.
- As North Carolina strives to improve state-funded health care, it has identified the value a statewide health information exchange (HIE) can provide as one of the tools to enable its success.

Purpose and Intent

- The exchange combines information from all participating health care providers to create a more complete health record for our patients in the NC HealthConnex network. This includes important health information like prescriptions, allergies, vaccinations, lab results, X-rays, test results, conditions and diagnoses.
- NC HealthConnex will be available to all providers, and is required of any provider receiving state-funded health care.

Efficiency

- North Carolina is taking a comprehensive approach to reforming Medicaid and making it more efficient and effective for the 1.8 million individuals receiving Medicaid services. NC HealthConnex will be a critical foundational element in reaching that goal.

Security and Privacy

- The NC HIEA takes patient health data privacy and security very seriously. In accordance with HIPAA regulations and state and federal law, the NC HIEA has and will enter into appropriate data sharing agreements and Business Associate Agreements with all organizations that will receive protected health information (PHI) from the NC HealthConnex network. The NC HIEA is fully compliant with HIPAA and state law.
- The NC HIEA is working with an industry leader, SAS Institute, to audit and strengthen NC HealthConnex and ensure the highest level of patient and data security.

Patient Education

- Patients do not have to participate in this system and can choose to opt out of having their PHI shared through the NC HealthConnex by sending the Patient Opt-Out Form, found on the NC HIEA website (<https://hiea.nc.gov/patients/your-choices>), to the NC HIEA business office. We will also be able to provide brochures and/or flyers in our clinics.
- If you have questions or concerns, please contact **[desired contact]**.
- For more information, visit the website at www.nchealthconnex.gov.

North Carolina Health Information Exchange Authority (NC HIEA)

About the NC HIEA

Health Information Exchange (HIE) systems have been in development nationwide since a federal law was passed in 2009 to promote the use of electronic movement and use of health information among health care providers. HIEs exist to improve health care quality, enhance patient safety, improve health outcomes, and reduce overall health care costs by enabling health information to be available securely whenever health care providers need it.

The North Carolina General Assembly established the state-managed Health Information Exchange Authority (NC HIEA) in 2015 to oversee and administer the NC Health Information Exchange Network, now called NC HealthConnex (NCGS 90-414.7). The NC HIEA is housed within the NC Department of Information Technology's (DIT) Government Data Analytics Center (GDAC).

While participation is open to any health care provider, the law requires that certain health care providers who receive State funds (e.g. Medicaid, State Health Plan) connect to NC HealthConnex by certain dates to continue to receive payments for services provided. (NCGS 90-414.4)

Why Is NC HealthConnex Important?

North Carolina's state-designated HIE, NC HealthConnex, connects providers to a secure information network that helps health care providers across the care continuum deliver the best possible care for patients and supports the State's vision for whole person care.

This electronic conversation enables providers to see their patients' most up-to-date health information including medications, lab results, allergies, image reports, conditions, diagnoses, and vaccinations, leading to better-informed, integrated care for patients.

As payers increasingly move to alternative payment arrangements that focus on value, NC HealthConnex gives health care providers the tools necessary to improve care coordination and close gaps in care. NC HealthConnex also supports public health reporting and provides data services for syndromic surveillance, analytic reporting, and patient matching.

NC HealthConnex Suite of Services

Exchange Services:

- Access a patient's longitudinal health record via a web-based clinical portal, single sign on or EHR integration
- Communicate PHI securely via Direct™ messaging
- Query neighboring state HIEs, and the VA/DoD via the eHealth Exchange network
- Check prescription history for controlled substances per the STOP Act

Notification Services:

- NC*Notify alerts providers in near real time as patients receive care in other care settings.
- Promotes timely follow-up on medications prescribed or other discharge instructions from ED or inpatient stay
- Provides notifications for chronic care management, high ED utilizers, diabetes diagnoses and more
- Supports continuity in care to reduce avoidable readmissions and achieve financial goals under value-based care contracts

Population Health/Analytics Services:

- Classify and Measure Patient Population via Registries & Integrations
 - Diabetes
 - Stroke
 - Immunizations
 - Controlled Substances
 - Maternal Health
 - COVID
 - Syndromic Surveillance
 - Quality Measures

NC Health Information Exchange Authority (NC HIEA) Press Release

***Instructions:** Please coordinate the release of this with the NC HIEA Executive Director Christie Burris (contact information below).*

[Your organization's name] Joins NC HealthConnex, North Carolina's State-designated Health Information Exchange, to Improve Patient Care

[Organization] has signed the agreement to join NC HealthConnex, North Carolina's state-designated Health Information Exchange (HIE). This health information exchange network is being used statewide, and will allow [Organization] to share a patient's important health information like drug allergies, prescriptions, medical conditions, and lab and test results with other health care providers with whom the patient has a relationship.

Established by the North Carolina General Assembly, NC HealthConnex is the state-designated health information exchange and is managed by the North Carolina Health Information Exchange Authority (NC HIEA), housed within the N.C. Department of Information Technology.

Health information exchanges like NC HealthConnex are being built in states and regions across the country and are widely viewed as central to supporting lasting improvements in our nation's health care system. These systems can reduce medical mistakes, improve care coordination, provide better patient outcomes and lower overall health care costs.

[Optional: Include information about your organization's experience with health information technology, particularly accolades, awards and other recognitions.]

For more information about [organization], visit [website]

For more information about the NC HIEA, visit www.nchealthconnex.gov.

About the North Carolina Health Information Exchange Authority (NC HIEA) and NC HealthConnex:

In 2015, the North Carolina General Assembly established a state-managed Health Information Exchange Authority (NC HIEA) to oversee and administer the NC Health Information Exchange Network (NCGS 90-414.7). Housed within the NC Department of Information Technology's (DIT) Government Data Analytics Center (GDAC), the NC HIEA operates North Carolina's statewide health information exchange-- NC HealthConnex. NC HealthConnex is a secure, standardized electronic system in which providers can share important patient health information. The use of this system promotes the access, exchange, and analysis of health information to help improve care coordination, quality of care, and enable better health outcomes.

NC Health Information Exchange Authority (NC HIEA)

Go Live Employee Email

Instructions: This is a sample email to send out a couple weeks before “go live” to educate your employees on the NC HealthConnex connection and the opt out process. This should be signed and sent out by a senior leader of your organization.

Dear Colleague,

[Organization name] will be going live with North Carolina’s state-designated health information exchange, NC HealthConnex on [date]. This means we will start sending patient data to the NC HIEA’s secure health information exchange network. When we go live we need to ensure our patients are aware and understand the benefits of having their key medical information linked in NC HealthConnex, as well as their ability to opt out.

North Carolina law requires that our staff notify patients of the benefits of the NC HealthConnex network as well as the opt out process and the right to rescind a previous decision to opt out. (See NCGS § 90-414.7b1d)

HIPAA requires that we notify our patients about the uses and disclosures of their health care data such as our participation in NC HealthConnex in [organization’s] Notice of Privacy Practices. (See 45 C.F.R. 164.520.)

To help you in this education process, the NC HIEA has provided:

- Talking Points for your use in educating patients (attached)
- 8.5x11 Patient Education Fact Sheet (attached)
- Tri-fold Patient Education Brochure [x number of copies available in waiting room]
- Opt Out Form (attached and found on the NC HIEA website at <http://hiea.nc.gov/patients>)

If patients have questions that you cannot answer, please direct them to the NC HIEA website or business office.

If you have additional questions regarding our partnership with the NC HIEA, contact [desired contact].

Thank you,

[Leader]

NC Health Information Exchange Authority (NC HIEA) Go Live Talking Points

Instructions: These talking points are being provided to assist staff when speaking with patients about the North Carolina Health Information Exchange Authority (NC HIEA) and the state-designated health information exchange, NC HealthConnex.

Tell them about North Carolina's Health Information Exchange, NC HealthConnex

- The North Carolina health information exchange, NC HealthConnex, is operated by the North Carolina Health Information Exchange Authority, housed within the NC Department of Information Technology.
- The system combines information from all your participating health care providers to create a more complete patient health record.
- States around the country have built similar health information exchanges to help improve patient care and reduce health care costs.

Explain how patient information is linked

- Your NC HealthConnex record includes important information like prescriptions, immunizations, lab and test results, image reports, conditions, diagnoses or health problems.
- Starting on **[go live date]**, your medical information will be automatically included in the NC HealthConnex secure system after each visit to **[organization name]**. You don't need to do anything.

Security and Privacy

- We have always been committed to safeguarding the privacy and security of our patients' information and you can be assured we will continue to protect your information.
- The NC HIEA takes patient health data privacy and security very seriously. In accordance with HIPAA regulations and state and federal law, the NC HIEA has and will enter into appropriate data sharing agreements and Business Associate Agreements with all organizations that will receive protected health information (PHI) from the NC HealthConnex network. The NC HIEA is fully compliant with HIPAA and state law.
- The NC HIEA is working with an industry leader, SAS Institute, to audit and strengthen NC HealthConnex and ensure the highest level of patient and data security.
- Only health care providers with correct identification and passwords can use the system, and they only use it when they need to support your care. Every time your NC HealthConnex health record is accessed, it's recorded in the system.

Educate about patient choices

- You have the right to opt out of allowing your data to be shared through NC HealthConnex. You can fill out and mail in the opt out form to the NC HIEA business office. We recommend participating in NC HealthConnex as it helps us take better care of you.

- Opting out must be done by the patient or legal representative. Staff at [organization name] cannot do this for you. This is a privacy precaution.
- Your choice to opt out of NC HealthConnex will not affect your ability to access medical care.
- When you opt out, your health care data is still sent to NC HealthConnex but it will be hidden.
- If you opt out and later decide you would like to participate, you will need to fill out another opt-out form to rescind your initial opt-out request, and send to the NC HIEA business office.
- Opt-out forms are available on the NC HIEA website - <http://hiea.nc.gov/patients>, and [insert where in your office located].

NC Health Information Exchange Authority (NC HIEA) Frequently Asked Questions for Patients

Q. What is the NC HIEA?

A. The Health Information Exchange Authority (NC HIEA) was established to oversee and administer the North Carolina state-designated HIE Network, NC HealthConnex. (SL 2015--241, as amended by SL 2015-264 and SL 2017-57).

Q. What is an HIE?

A. A Health Information Exchange (HIE) is a secure, electronic network that gives authorized health care providers the ability to access and share health-related information across a statewide information highway. It exists to improve health care quality, enhance patient safety, improve health outcomes, and reduce overall health care costs by enabling health information to be available securely whenever health care providers need it. The state-designated HIE is called NC HealthConnex.

Q. Who is “required” to use the NC HealthConnex and why?

A. Recently passed legislation requires that any health care provider who receives state funds for the provision of health care services connect and submit patient demographic and clinical data to the HIE by certain dates.

Q. What information is used to identify patients in the system?

A. Information used to identify patients in the system is: name, date of birth, sex, address and telephone number. The NC HIE uses this information to make an accurate patient match and reduce errors.

Q. Is it against the HIPAA Privacy Rule for you to share my information?

A. No. The HIPAA Privacy Rule does not require patient consent when information is required by law to be shared, or if it will be used to support treatment, payment, or health care operations, as is the case with NC HealthConnex. It acts as a “virtual medical record department” to collect and store medical records on behalf of participating organizations. Having a third-party entity such as NC HealthConnex to provide electronic health information management services for busy practices and hospitals is a common practice that allows your providers to have timely access to the right information at the right time.

Q. What if I receive care at a health care organization that is not participating in NC HealthConnex, what happens to my records?

A. Only providers who are participating in NC HealthConnex can access and include information in the system. If your provider does not participate, they will continue to update your medical record in their own system, and they will share your medical records as they always have, by mail, email or fax.

Q. What about mental health provider records? Are those part of my record?

A. Information collected by a licensed mental health provider or facility will be included in the NC HIE system. However, psychotherapy notes or information that comes from a substance abuse treatment facility that receives federal assistance as defined in 42 C.F.R. Part 2 will not be included.

Q. Is there a record of who has viewed my health information and why?

A. NC HealthConnex tracks who views patient records and performs regularly-scheduled audits of the HIE system. The system has strict user access policies in place so that only a clinician can see your complete record. Please let us know if you have questions and concerns about access to your records.

Q. Do I have rights to access the portal to view my medical history?

A. At this time, patient access to the NC HealthConnex is not functional. As North Carolina continues its focus on patient-centered population health to improve health care outcomes, it is possible that the NC HIEA would look to expand this functionality.

Q. Will my medical information be posted on the Internet or sold for a mailing list?

A. No. All data is protected, stored and accessed only for purposes permissible under state and federal law. The NC HIEA takes patient health data privacy and security very seriously. In accordance with HIPAA regulations and state law, the NC HIEA has, and will enter required data sharing agreements or Business Associate Agreements with all organizations that will receive protected health information (PHI) from the NC HealthConnex. Information that identifies you will never be sold, and you will not be added to any mailing list.

Q. How often is the system checked for security failures/hackers?

A. Security tests are performed on an ongoing basis to make sure that the records remain secure. For more information about security, please contact the NC HIEA business office directly.

NC HIEA Sample Notice of Privacy Practices

The following sample Notice of Privacy Practices could be utilized by health care providers who are connecting to NC HealthConnex and who want to ensure that their patients receive notice of the disclosures that will be made. Please review and edit the Notice to make it relevant for your practice.

Disclosure to Health Information Exchanges

This facility participates in the North Carolina Health Information Exchange Network, called NC HealthConnex, which is operated by the North Carolina Health Information Exchange Authority (NC HIEA). We will share your protected health information, or PHI, with the NC HIEA and may use NC HealthConnex to access your PHI to assist us in providing health care to you. We are required by law to submit clinical and demographic data pertaining to services paid for with funds from North Carolina programs like Medicaid and State Health Plan. We may also share other patient data with NC HealthConnex not paid for with State funds. If you do not want NC HealthConnex to share your PHI with other health care providers who are participating in NC HealthConnex, you must opt out by submitting a form directly to the NC HIEA. Forms and brochures about NC HealthConnex are available in our offices and online at NCHealthConnex.gov. You may also contact our Privacy Office at (XXX) XXX-XXXX. Again, even if you opt out of NC HealthConnex, we still will submit your PHI if your health care services are funded by State programs. Your patient data may also be exchanged or used by the NC HIEA for public health or research purposes as permitted or required by law. For more information on NC HealthConnex, please visit NCHealthConnex.gov/patients.

About NC HealthConnex

Your Health Care Provider Is Connected to the state-designated HIE
- NC HealthConnex - What You Need to Know

About NC HealthConnex

Health Information Exchange (HIE) systems have been in development nationwide since a federal law was passed in 2009 to promote the use of electronic movement and use of health information among health care providers. North Carolina's health information exchange, NC HealthConnex, brings added value to the health care conversations that are happening at all levels in the health care industry. Use of HIEs break down information silos between health care providers, help achieve greater health care outcomes for patients and create efficiencies in state-funded health care programs such as Medicaid.

What Is It?

NC HealthConnex is a secure, electronic system for doctors, hospitals and other health care providers to share information that can improve your care. The system links your key medical information from all of your health care providers to create a more complete electronic health record.

How Does It Work?

NC HealthConnex helps health care providers quickly access the information they need to make more informed decisions about your care, especially in an emergency. When needed, health care providers already share patient health records for your care through fax, email and mail. NC HealthConnex makes receiving information easier, faster and more secure.

Without using NC HealthConnex, health care providers see only the information they have entered into your medical record. With NC HealthConnex, they see a more complete record, enabling them to provide you with the best care possible.

Without using NC HealthConnex, health care providers see only the information they have entered into your medical record. With NC HealthConnex, they see a more complete record, enabling them to provide you with the best care possible.

What does it mean to be a part of NC HealthConnex?

As a patient, it means having peace of mind in visiting a new health care provider's office if they are participating in NC HealthConnex. If your information has been uploaded before, your new provider will be able to access that data.

This means they can spend less time taking down your history and spend more time treating you.

NC HealthConnex helps improve health care through:

- Better coordination between health care providers
- Fewer medical errors
- Improved patient safety and health outcomes
- Fewer repeat tests and procedures
- Less paperwork
- Reduced health care costs
- Faster identification and reporting of public health threats

[over]

NC HealthConnex is a Secure, Private Network

- The state entity operating NC HealthConnex - the NC Health Information Exchange Authority (NC HIEA) follows the highest information security standards available. Housed in the N.C. Department of Information Technology, information is always encrypted and sent over a private network when shared between NC HealthConnex and health care providers participating in the network.
- NC HealthConnex is compliant with all federal and state privacy and security laws.
- Information that identifies you will not be sold in any way or shared with anyone other than authorized health care providers or organizations that have entered into HIPAA-compliant, data-sharing agreements.

What Does the NC HealthConnex Record Include?

Important information is included in your NC HealthConnex record:

- Medicines (prescriptions), allergies, lab and test results, image reports, conditions, diagnoses and vaccination history
- Demographic information

Not included in your health record:

- Substance abuse records or psychotherapy notes unless authorized by you, the patient.

Your Choices

You have the right to opt out of having your information shared between providers through NC HealthConnex.

If you choose to opt out, please complete the “Opt Out” form accessible via the NC HIEA website: **hiea.nc.gov/patients/your-choices**. Your provider may also be able to provide a form to you.

Complete the form and mail it to:

**NC Health Information Exchange Authority
Mail Service Center 4101
Raleigh, NC 27699-4101**

- Opting out of NC HealthConnex will not adversely affect your treatment by your physician, and you cannot be discriminated against if you decide to opt out.
- If you change your mind about participating in NC HealthConnex, you can opt back in at any time by completing a new form.

The North Carolina Health Information Exchange Authority (NC HIEA) operates North Carolina’s statewide health information exchange - NC HealthConnex. NC HealthConnex is a secure, standardized electronic system in which providers can share important patient health information. The use of this system promotes the access, exchange, and analysis of health information. It is housed within the North Carolina Department of Information Technology’s Government Data Analytics Center (GDAC). **For more information:**

Please email completed form and any attachments to hiea@nc.gov.

North Carolina Health Information Exchange Authority

Patient Opt-Out Information

Updated 8/29/2023

The North Carolina Health Information Exchange Authority (NC HIEA) is operating North Carolina's Health Information Exchange, now called NC HealthConnex. NC HealthConnex is a secure, electronic network that allows participating medical providers to share your health information with one another. This enables participating physicians, hospitals, laboratories, pharmacies, and other health care providers to have access to important medical information about you that can assist them in making critical medical decisions for you.

Your Patient Record

Your patient record in NC HealthConnex will include information about your medications, allergies, laboratory results, and other information gathered during your encounters from your health care provider. Your record will also include your demographic data to help identify you when you visit different health care providers across the state. It will not include any information about you that federal law prohibits sharing without your express authorization, like psychotherapy notes and substance abuse treatment records.

Benefits of NC HealthConnex

What does it mean to be a part of the NC HealthConnex network? As a patient, it means having peace of mind in visiting a new health care provider's office if they are participating in NC HealthConnex. If your information has been uploaded before, your new provider will be able to access that data. This means they can spend less time taking down your history and spend more time treating you.

Participating in NC HealthConnex is even more important if you visit an emergency department at a participating hospital and you are unable to provide critical information about your current health status to hospital staff, including your diagnoses, medications, and allergies.

Who Can See My Record?

Only participating health care providers and other HIPAA covered entities that have signed contracts with the NC HIEA will be able to access your medical information through NC HealthConnex. Your NC HealthConnex data may also be provided to third parties who have entered into contracts with the NC HIEA for limited purposes (i.e., the NC Department of Public Health for immunizations). These contracts ensure that all relevant privacy statutes and regulations are followed in how your health information is viewed, used, and shared. The NC HIEA also has the power to audit the use of patient information by each participating practice and each third party to ensure the law is being followed.

Right to Opt Out of NC HealthConnex

You have the right to opt out of having your information shared between providers through NC HealthConnex. If you choose to opt out, please fill out the form on the following page and mail it to the NC HIEA. Opting out of NC HealthConnex will not adversely affect your treatment by your physician and you cannot be discriminated against if you decide to opt out. You can also use the form to rescind a previous opt out if you change your mind. However, your information may also be shared as required or permitted by law, for instance, for public health purposes.

Please note that the NC HIEA will only process opt out forms that are signed by adults over the age of 18. If you are under the age of 18 and have not gone through the legal process to become emancipated, you must have a parent or legal guardian sign the opt-out form.

If the information you provide to the NC HIEA on a Patient Opt-Out Form changes (for example your name or address changes) then you will need to submit a new Patient Opt-Out Form to the NC HIEA to ensure your opt out is applied to all of your information.

The information presented is not legal advice and is not to be acted on as such, may not be current, and is subject to change without notice.

**North Carolina Health Information Exchange Authority
Patient Opt-Out Form**

Please complete one box and the information requested below, and mail to:
**NC HIEA, Attn: Opt-Out Processing, 4101 Mail Service Center, Raleigh, NC
27699-4101 Please include a return address on the mailing envelope.**

☐ **Opt-Out: The NC HIEA may not share any of my health information.**

By completing and signing this form, I certify that I have been notified of the benefits of NC HealthConnex and of my right to opt out of having my data shared between participating health care providers through NC HealthConnex. I understand that if the information I provide on this Patient Opt-Out Form changes, then I will need to submit a new Patient Opt-Out Form with my current information to ensure my opt out is applied to all of my information. I also understand that my personal health information may be accessed and used in certain circumstances pursuant to HIPAA and NC law, such as reporting public health threats. **I understand that the information provided to me is not legal advice and I will hold the North Carolina Health Information Exchange Authority harmless for the direct or indirect consequences of my decision to opt out.**

La Autoridad de Intercambio de Información de Salud de Carolina del Norte (NC HIEA) Formulario de Optar No

Actualizado 09/06/23

La Autoridad de Intercambio de Información de Salud de Carolina del Norte (NC HIEA) ahora conocida como el NC HealthConnex maneja el intercambio electrónico de información de salud del estado de Carolina del Norte. NC HealthConnex es una red electrónica segura que permite a los proveedores médicos participantes compartir su información de salud entre ellos. Esto permite a médicos, hospitales, laboratorios, farmacias y otros proveedores de la salud tener acceso a información médica importante sobre usted la cual puede asistirlos en la toma de decisiones médicas críticas.

Su Historial Clínico

Su expediente clínico en el NC HealthConnex incluirá información sobre sus medicaciones, alergias, resultados de laboratorios, y cualquier otra información recopilada durante sus visitas médicas. Su expediente también incluirá sus datos demográficos para ayudar a identificarlo cuando usted visite a otros proveedores de salud en todo el estado. Este expediente no incluirá información sobre usted que la ley federal prohíbe compartir sin su autorización expresa, como lo son notas de psicoterapia y registros de tratamiento de abuso de sustancias controladas.

Beneficios de la Red NC HealthConnex

¿Qué significa participar de la red NC HealthConnex? Como paciente, significa tener la tranquilidad de poder visitar la oficina de un nuevo proveedor de atención médica si este es participante de la red de NC HealthConnex. Si su información ha sido previamente enviada al sistema, su nuevo proveedor podrá acceder a sus datos inmediatamente. Esto significa que usted y su proveedor pueden dedicar menos tiempo repasando su historial médico y más tiempo en su tratamiento.

La participación en la red NC HealthConnex es de suma importancia si usted tiene que visitar una sala de emergencia de un hospital participante y no puede proporcionar información crítica sobre su estado de salud actual al personal médico, incluyendo sus diagnósticos, medicamentos y alergias.

¿Quién Puede Ver Mi Expediente Clínico?

Solo los proveedores de salud participantes y otras entidades cubierta por la ley HIPPA (por sus siglas en inglés) las cuales han firmado contratos con el estado de Carolina del Norte HIEA podrán acceder a su información médica a través de NC HealthConnex. Sus datos de NC HealthConnex también pueden proporcionarse a terceros que hayan suscrito contratos con el NC HIEA con fines limitados. (Por ejemplo, con el Departamento de Salud Pública de Carolina del Norte para el registro de inmunizaciones.) Estos contratos aseguran que toda información relevante a privacidad, estatutos y regulaciones son practicados en relación de cómo se comparte y examina su información de salud. El NC HIEA también tiene la facultad de auditar como se utiliza su expediente clínico por parte de cada participante y terceros; esto para asegurarse que su uso es conforme con la ley,

Su Derecho de No Participar de NC HealthConnex

Usted tiene el derecho de no participar del programa para que su información no sea compartida con otros proveedores a través de NC HealthConnex. Si usted decide no participar, llene el formulario en la página siguiente y envíelo a NC HIEA. La exclusión voluntaria de la NC HealthConnex no afectará negativamente su tratamiento médico y no puede ser discriminado si decide optar por no participar en el programa. Sin embargo, su información puede ser compartida como lo requiere o permite la ley, por ejemplo, para propósitos de salud pública.

Si usted es un menor de 18 años y no ha pasado por el proceso legal para ser emancipado, debe tener un padre o tutor legal para firmar el formulario de optar no.

Si la información que proporciona a NC HIEA en un formulario de optar no cambia (por ejemplo, su nombre o dirección cambia), deberá enviar un nuevo formulario a NC HIEA para garantizar que se aplique su exclusión voluntaria a toda su información.

La información presentada no es un consejo legal y no se debe actuar como tal, puede no estar actualizada y está sujeta a cambios sin previo aviso.

**La Autoridad de Intercambio de Información de Salud de Carolina del Norte (NC HIEA)
Formulario de Optar No**

Por favor de elegir la casilla apropiada, completar el formulario y enviar a:
NC HIEA, 4101 Mail Service Center, Raleigh, NC 27699-4101
Por favor, incluya una dirección postal de retorno en el sobre de correo.

☐ **Darse de Baja: NC HIE no puede compartir mi información de salud**

Al completar y firmar este formulario, certifico que he sido notificado de los beneficios del intercambio de información de Salud de Carolina del Norte y de mi derecho de optar por no tener mis datos compartidos entre los proveedores de atención de la salud a través de la red de NC HealthConnex. También entiendo que mi información médica personal puede ser accedida y usada en ciertas circunstancias, de conformidad con la ley HIPPA y leyes de Carolina del Norte, tales como reportes de amenazas contra la salud pública. **Entiendo que la información proporcionada no es asesoramiento legal y no voy a mantener indemne a la Autoridad de Intercambio de Información de Salud de Carolina del Norte por las consecuencias directas e indirectas de no participar.**
