What's New with NC HealthConnex

- The NC HIEA closed out 2021 with 600 data connections added in the previous 12 months, bringing the total number of connections to more than 7,300 facilities and 140 hospitals.
- Florida and Vidant Health have been added as additional queries over the eHealth Exchange.
- The NC HIEA Advisory Board recently submitted a report to the NC General Assembly with connectivity status statewide and recommendations for consideration during the legislative Short Session which convenes in mid-April. See the [final report](#). See also [Who's Connected?](#)
- Check out the latest NC HIEA [monthly update](#). Each month we're featuring a participating health care practice to showcase how providers are using this valuable utility in their workflow.

NC HealthConnex Enables Queries to the Controlled Substance Reporting System

Are you a provider who prescribes controlled substances?

- NC HealthConnex **helps providers meet the [STOP act requirement](#)**
- **Single sign-on** to the NC HealthConnex clinical portal will query the Appriss/CSRS database
- Creates an additional pathway for providers to access the state's prescription drug monitoring program
- 2 ways to access CSRS data

CSRS Within A Patient Record

The screenshot shows a web browser window titled "NARxCare - Google Chrome" with a secure URL. The page header includes a "Menu" icon and "Contact Appriss Support". A yellow banner states: "No prescription data is available from your state PMP for this patient." The patient information section identifies "Jane Demo, 78" and includes a "Narx Report" tab, "Resources", and a "Powered by NarxCare" logo. The report date is "07/16/2020" with a "Download PDF" link. Below this is a "Status of States Queried" section with a "View Details" link. The main content area is divided into three columns: "NARX SCORES" with sub-sections for Narcotic (000), Sedative (000), and Stimulant (000); "OVERDOSE RISK SCORE" showing a score of 000 (Range 000-999); and "ADDITIONAL RISK INDICATORS (0)". Each column has an "Explanation and Guidance" link at the bottom. A disclaimer at the bottom of the main content area reads: "This NarxCare report is based on search criteria supplied and the data entered by the dispensing pharmacy. For more information about any prescription, please contact the dispensing pharmacy or the prescriber. NarxCare scores and reports are intended to aid, not replace, medical decision making. None of the information presented should be used as sole justification for providing or refusing to provide medications. The information on this report is not warranted as accurate or complete." Below the disclaimer is a "Graphs" section with an "RX GRAPH" link and a legend for "Narcotic", "Buprenorphine", "Sedative", "Stimulant", and "Other", each with a checked checkbox.

Single Sign-on

- What is single sign-on (SSO)?
- Pilot underway with Athena
- If interested, please contact your EHR vendor

Single Sign-on Example

The screenshot displays the athenahealth user interface. On the left is a dark sidebar menu with the following items: Quickview, Create patient case, Create order group, Print chart sections, Print forms, Add document, Chart export, **Third party applications** (highlighted in yellow), and Audit history. The main content area is titled "Third party applications" and features a search bar with a magnifying glass icon. Below the search bar, the text "Health Connex" is highlighted in yellow. Below this is a navigation bar with a home icon and a "Back to: Patient Search" button. The main content area contains a "Patient Search Results" table with the following data:

Identifier(s)	Name	Gender	DOB	Address
> 100059408...9999	Vader, Darth	M	1999-01-01	123 Darth Vader Ave, STATESVILLE NC 28625

Bidirectional Connections

Data from EHR to HIE:

Clinicians enter data into their EHR, and that data is automatically sent to the HIE.

Data from HIE to EHR:

Clinicians who have care relationships with their patients may readily access the HIE aggregated patient record via their EHR.

- The spreadsheet will have one row per user.
- If you would like to add a user, add a new row and fill in the values for the required fields listed below.

*****Please do NOT delete columns or change any column names.*****

Filling out the User Management Spreadsheet

Column A - Facility Name as it appears on your Participation Agreement

Column B - Facility Code

Column C - Select a role within the drop-down menu – A few examples are shown below

Column D - User IDs **must** be in the format FacilityCode.First.Last

Column E and F – Last Name; First Name

Column H - Email Address – Each user's email address must be unique and accessible only by the individual named in the account

Column J – Select True to create an account and False to disable an account

Managing User Accounts within the Portal

Include your updated User Management Spreadsheet as part of the request.

Click Browse > Find the User Management Spreadsheet you saved > Click Submit Request to Help Desk

Select your request type and enter your request into the **Request Comments** field. Click **Submit Request to Help Desk** to send your request to the NC HIEA Help Desk team.

The screenshot shows a web form for submitting a request. It includes input fields for Last Name, First Name, and User ID, followed by 'Search Users' and 'Reset Se' buttons. Below these are a 'Request Type' dropdown menu and a 'Request Comments' text area. At the bottom, there is a 'User Accounts File Name' field with a 'Browse...' button and a 'Submit Request to Help Desk' button. A yellow arrow points to the 'Request Type' dropdown, which is open to show options: 'Create User', 'Update User', 'Enable User', 'Disable User', 'Reset Password', and 'Other'. Three yellow arrows point to the 'Request Type' dropdown, the 'Request Comments' field, and the 'Submit Request to Help Desk' button.

Managing User Accounts within the Portal

You can also submit requests to disable users and reset passwords from within your portal account

Direct Secure Messaging (DSM)

What is Direct Secure Messaging?

DSM allows a provider to send PHI through a secure network to other providers with a DSM account. DSM is commonly used for referrals and transitions of care.

Benefits to DSM?

- Increased reporting capability for Meaningful Use
- Better visibility into your practice's DSM usage

How Much Does this Service Cost?

DSM is a FREE value-added service available to you as a Full Participant of the NC HIEA.

Requesting New DSM Accounts

- Individual NPI is required.
- If you are requesting a DSM account for someone without an NPI, please leave the NPI field blank.

ATTEST TO AUDIT ACTIVITY ✕

By electronically signing this form, I acknowledge that:

- a) The information provided in the portal around user activity is accurate to the best of my knowledge; and
- b) I or my designee have requested that the SAS Help Desk team make the necessary changes to ensure that only currently active users employed by my HCO are included in the list and therefore have authorized access and use of the NC HealthConnex clinical portal; and
- c) I have reviewed the user activity information and confirmed it is acceptable under the participation agreement and applicable laws, and in the case of suspicious or aberrant activity, that all user anomalies have been, or will be investigated and appropriate action taken as necessary.
